SIG Reports

Libraries

Stephanie Gehrke and Kevin Hawkins

- subgroup meeting once a month

- working on revision of the Best Practices for TEI in Libraries document

Computer-mediated Communication

Michael Beißwenger

- next step of the SIG's work will be to work on feature requests for basic modeling concepts needed for the representation of CMC in the TEI

East Asian / Japanese

Kiyonori Nagasaki and A. Charles Muller

- Held the first workshop on "Models of Japanese Texts and TEI" to share current situation and future plan for Japanese TEI encoding at the University of Tokyo in August

- The conveners are contacting some projects in Korea, Vietnam and Taiwan to collaborate with the SIG

Linguistics

Piotr Bański and Andreas Witt

- Workshop held here devoted to modeling and description of lexical resources

- For the coming year, LingSIG is going to work with a special focus: lexical/concept description. They envision a series of hands-on meetings that should result in several proposals submitted to the Council.
